

SEVEN DAYS OF CREATION

Close your eyes and you will see,
How our world used to be.
God said, "First, I'll make it bright"
So on the first day, He made light!

His pallet had colors never seen,
Red and purple, blue and green.
With His brush and Creator's eye,
The second day, He made water and sky!

With every stroke of His majestic hand,
Appeared the **oceans, plants, and land.**
This would be hard for you and me!
But not with God, and it's just day-three!

As He looked upon this glorious sight,
He decided His sky needed more light.
So He added **planets and a starry display!**
He wasn't through and it was just the fourth day!

Variety is the Master's pleasure,
So He sprinkled the earth with hidden treasure.
Fish for the oceans, **birds** for the air!
This was the fifth day, with two to spare!

God loves to laugh, so to have some fun,
He created the **animals!** But He wasn't done!
His finest creation was yet to be,
On the sixth day, He made you and me!

God said, "It is Good!" and relaxed the next day.
He wants us to rest, and in the same way!
"Work all week long, be the best you can be!
But on the seventh day, stop! And rest with Me."
